## 2. What is the meaning of 3 different Import types?

\*can be used only for unit settings and resource content

- *Replace:*  
data will be replaced completely.
- *Merge:*  
items with the same name will be replaced and the new items will be added.
- *Append:*  
items with the same name will be left intact and the new ones will be added.

# 3. How can dynamic filter help using Import/Export?

**Export to WLP**

Export from: Unit

Export to: File Item Demo

**Source items**

Filter:  Name  Creator  Account  Unique ID  Phone number  Device type  Unit group  Custom fields  Admin fields  Profile fields

**Export options**
