Ultimate GPS Tracking Platform

Advanced Monitoring  
Tachograph Solution  
Eco Driving  
Logistics

## Advanced Monitoring

Wialon for fleets is an innovative web-based fleet management platform available in SaaS and server-based delivery modes. The system lets you focus on the KPIs of particular importance, thereby maximizing your efficiency.

Reduce labor, fuel and depreciation costs by decreasing idle time, optimizing miles driven and managing driver behavior. Plus, get to more jobs faster and get more done.

## Tachograph Solution

Save your time on collecting tacho data and maintain compliance with EU legislation with Tacho Manager and Tacho View apps by Gurtam. Being instantly compliant with current and final regulations, the apps allow for remote tachograph files download and comprehensive data analysis.

The solution utilizes a specific algorithm to count working hours based on the legislative peculiarities of the region concerned and provides handy reports on work and rest periods as well as any infringements for each driver of your fleet.

## Eco Driving

Enhance cargo safety and rate up driving quality with Wialon Eco Driving module. Due to flexible configuration it allows to build a comprehensive driving quality assessment model, based on various violation criteria, and leverage data from hardware accelerometers.

Eco Driving helps to distinguish between reckless and diligent drivers by ranking them on the basis of penalty points and presenting the analytics in a user-friendly format. Opt for cargo safety, extend the life of your fleet and improve your team's driving standards with Eco Driving by Gurtam.
